

King County

201 South Jackson, # 700

Seattle, WA 98104

King County Parks has embraced extraordinary change and innovation over the past few years. A major funding crisis in 2002 presented King County Parks the opportunity to refocus with an emphasis on things we do best. King County Parks continues to be the key provider of regional parks, natural lands and trails -- specializing in finding strategic partners who will work with the county to increase community & park amenities without increasing ongoing operations costs.
